Sat August 24 th This day strong breeze we saw a whale this morning going to windward quick we lowed but could not get to him came on board again we saw a nother one after supper we lowe an strike him at dark 3 mate got stove and went on board 4 mate got stove so his boat sank we now gone two men got badly hurt one we dont think will live Lat 34-58 Lon 45-26 we had to cutt from the whale he were hurt pretty bad we got on board Lat 11 P M so that ends this day

Sun August 25 th This day moderated breeze one of the men died this morning at 4 A M we buried him this morning at 8 A M. Antone B Lopes the other man are doing a little better we Rais the whale 10 A M manned to sails to windward dead we lowed two boats and tow him to the ship got a long side at 5 P M Lat 34-54 Lon 45-30 so that ends this day

Mon August 26 th this day
moderated breeze one steamer
were in sight we cutt in
that whale and stood
try out the sick man
is about the same
Lat 34-00 Long 81 that
ends this day

Tue August 27 th this day
good breeze we saw a sailing
vessel we are still try
out Lat 35-25 Long 44-31 the
sick man is little better
so that ends this day

Wed August 28 th this day
good breeze we saw
some porpoise we finish
try out last night
the sick man are a
little better Lat 36-35
Long 42-56 so that ends
this day

Thu August 29 th this day
moderated breeze we been
running water get ready
to slow down Lat 36-35
Long 40-47 the sick man
are a little better so
that ends this day

Fri August 30 th this day moderate
breeze we saw a steamer
and some grampers we
stove down 100 barrels
of oil to day Lat 38-40 day
Long 38-46 so that ends the

Sat August 31 th this day Moderate breze Lat 36-45 Long 36-47 so that ends this day

Sun September 1 th this day good breze we saw grampus and a whale at 5-30 P M the next time became up it was dark we did not see him Lat 37-10 Long 34-41 the sick man are a little better so that ends this day

Mon September 2 th this day strong breze one sailing vessel were in sight Lat 38-15 Long 38-02 so that ends this day

Tue September 3 th this day strong breze we saw a whale 6 of M we an my John strike him no other boat could not get nere him he run to wre ward I could not get nere enugh to do him any good quite a sea running cake killing my boat so I had to cuff we saw some more this after noon we lowed down but he felt the boat came on dark so we came on board Lat 39-20 Long 31-15 so that ends this day

Wed September 4 th This day
good breeze but a head
for us we sight the
Island Flores Lat 39-30
Long 31-00 so That ends
this day

Thu September 5 th This day
strong breeze a head for us
the Island Flores we re
still in sight Lat 39-03
Long 30-13 so That ends
this day

Fri September 6 th This day
strong breeze saw a
steamer we still has had
win Lat 39-56 Long 28-28 so
That ends this day

Sat September 7 th This day
strong breeze we saw a
few whales at 2-30 P.M.
a steamer were in sight
We think he must have
run over the whales,
because they were going
to windward such we could
but did not get near them
Lat 39-46 Long 27-5-8 so
That ends this day

Sun September 8 th This day
strong breeze to day we saw
of the Islands we got in
sixteen St George and Gracio
and the win died out and
now we are trying to get
so That ends this day

Mon September 9th This day very light breeze at day clean the evening we are a Lant in the same place we were last night in betwen the Island so that ends this day

Tue September 10th This day very light breze we kass some of the Irland win a head again for us we see two little schooners the sick man are a little better he has been upon deck to day so that ends this day
